EDITORIAL INDEX

Editorial highlights from 1987

Artificial intelligence

What to expect of expert systems ..... Apr. 52
What's next for IBM's expert systems ..... May 44
Expert systems for manufacturing ..... Jun. 60
Cramming common sense into computers ..... Jun. 68
Beyond expert systems ..... Oct. 80
Knowledge-based systems (SW Cda) ..... Oct. 6

Computer environment/security

Network security: how serious is the threat ..... Feb. 38
How to attain network security ..... Mar. 68
How to keep mainframes comfortable ..... Apr. 42
How encryption secures data ..... Apr. 72
Standby power tackles critical jobs ..... May 34
Disaster plan saved Steinberg EDP ..... May 85
System prevents micro data thievery ..... May 91
Security is the key issue ..... Aug. 102
Planning for the unthinkable ..... Oct. 36
Biometrics – computer identification ..... Nov. 56

Computers in action

Revlon automates order processing ..... Feb. 40
A 'paperless' financial records system ..... Mar. 63
Computers in banking ..... Apr. 48
Hospital delivers records system ..... May 81
Paper producer automates operations ..... May 83
CDC's computer-aided learning ..... May 93
Steel company info system ..... Jun. 56
Educational on-line system ..... Jul. 43
Computers in education ..... Aug. 69
Insurance company telecom approach ..... Sep. 54
RDBMS routes cellular system ..... Sep. 72
DPS90 keeps 'em flying ..... Sep. 73
Encor opts for mini ..... Nov. 81
School board gives 4GL an A ..... Nov. 92
Pizza Pizza's call distributor ..... Nov. 92

Data communications

E-mail charges need changing ..... Feb. 20
The 50 baud solution is alive ..... Feb. 22
Is fibre optics competitive for LANs? ..... Feb. 44
Applying datacomm can make jobs ..... Mar. 30
Data and voice ..... Mar. 98
Sharing and data compression ..... Apr. 29
EDI seeks wider role in business ..... Apr. 61
How encryption secures data ..... Apr. 72
You may have a resource gap ..... May 29
SNA and TCP/IP ..... May 87
New services help shave costs ..... Jun. 31
Cdn telecomm's tale of achievement ..... Jun. 32
Comm system boosts traffic ..... Jun. 47
Rely on the basics to save ..... Jul. 25
Connecting with intelligent nets ..... Aug. 23
What's ahead for fax? ..... Aug. 27
Selecting a PC-based LAN ..... Aug. 41
Bar code technology report ..... Aug. 48
Networking with the 386 ..... Aug. 62
Implementing the satellite net ..... Sep. 44
What to know about LAN technology ..... Sep. 64
Critical issues in networking ..... Sep. 81
Know your traffic needs ..... Oct. 27
The growing chorus for voice technology ..... Oct 48
The case for the phone LAN ..... Oct. 69
What to know about computer comm ..... Oct. 72
Know the capabilities of your equipment ..... Nov. 39
Choosing the right test equipment ..... Nov. 48
Enhanced nets discourage competition ..... Dec. 27
Pushing EDI into reality ..... Dec. 40
Why OA needs wider connectivity ..... Dec. 44
Modems – fighting to hold the line ..... Dec. 46

Forecasts

Is the voice-automated factory next? ..... May 31
What's next for IBM's expert systems ..... May 44
What's ahead for fax? ..... Aug. 27
Voice input and output prospects ..... Oct. 29
Will CD-ROM shine in the DP world? ..... Oct. 54
Modems – fighting to hold the line ..... Dec. 46
Review & Forecast 1988 ..... Dec. 54

Graphics

X-Windows – an emerging standard for graphics .. Mar. 40
Color hardcopy needs systems approach ..... Apr. 38
Is WYSIWYG what you want (SW Cda) ..... Apr. 18
Towards visual programming ..... May 49
What to know about scanners ..... Aug. 50
The scanning solution ..... Nov. 86

Information management

Choosing a consultant ..... Feb. 30
Network security: how serious is the threat ..... Feb. 38
EDP practitioners: amateur or professional? ..... Feb. 48
Turmoil threatens DP managers ..... Mar. 37
An approach to DP cost justification ..... Mar. 50
Does strategic systems planning pay? ..... Mar. 58
Statistical reporting tools aid DBAs ..... Mar. 65
How to attain network security ..... Mar. 68
The rocky road to MIS success ..... Apr. 34
How encryption secures data ..... Apr. 72
Don't ignore your data centre ..... Apr. 108
Executive info systems ..... Jun. 74
Productivity through people ..... Jul. 56
End-user computing coming of age ..... Aug. 29
Who needs an MIS committee? ..... Sep. 78
What's happening in system reliability ..... Oct. 44
Putting the IS house in order ..... Oct. 84
What's end user computing? ..... Nov. 46
Online DB services ..... Nov. 68
Put your staff's knowledge to work ..... Nov. 82
No more mind-numbing plans ..... Dec. 29
Report on DP training ..... Dec. 36
Wang system integrates DP, OA ..... Dec. 53

Legal issues

Blowing the whistle on compatibles ..... Apr. 25
Settling disputes ..... Jun. 22
Beware of contracts ..... Jun. 118
Law/high-tech interface ..... Aug. 25
The question of trademarks ..... Oct. 25

Blowing the whistle on compatibles ..... Apr. 25
Settling disputes ..... Jun. 22
Beware of contracts ..... Jun. 118
Law/high-tech interface ..... Aug. 25
The question of trademarks ..... Oct. 25

New competition law ..... Nov. 35
Let's try arbitration ..... Dec. 30

Manufacturing technology

Designing a db for production systems ..... Apr. 55
Is the voice-automated factory next? ..... May 31
Paper producer automates operations ..... May 83
Steel company info system ..... Jun. 56
Expert systems for manufacturing ..... Jun. 60
Forging the CAD/CAM MRP link ..... Jul. 52
Bar code technology report ..... Aug. 48

Market analysis/data

Risks and profits in leasing ..... Feb. 24
How strategic is IBM's 9370 ..... Feb. 26
Mainframe brokering remains bullish ..... Feb. 66
Is industry slump due to IBM? ..... Mar. 33
Big system pace quickens ..... Mar. 47
Value-added compatibles on the move ..... Apr. 27
Printer trends ..... May 58
Computer publishing set for big growth ..... Jun. 40
Terminal vendors face market squeeze ..... Jun. 77
What's happening in maintenance ..... Jul. 35
Mainframe price hikes ..... Aug. 90
The growing chorus for voice technology ..... Oct 48
Will CD-ROM shine in the DP world? ..... Oct. 54
SW maintenance – a shunned market ..... Oct. 60
Will GaAs ride silicon market? ..... Oct. 80
What's behind service discounts? ..... Nov. 37
Competition in IBM OS market ..... Dec. 25
Enhanced nets discourage competition ..... Dec. 27
HB set for office gains ..... Dec. 32
Modems – fighting to hold the line ..... Dec. 46

Minis, large computers

How strategic is IBM's 9370 ..... Feb. 26
Profile of mainframe users ..... Feb. 34
Mainframe brokering remains bullish ..... Feb. 66
Big system pace quickens ..... Mar. 47
How to keep mainframes comfortable ..... Apr. 42
Large system race on new tack ..... May 27
Processor battle heats up ..... Jun. 25
Parallel processing holds promise ..... Jun. 29
What to know about parallel processing ..... Jul. 26
Anticipating IBM CPU announcements ..... Jul. 60
DPS 8000 is platform for RDBMS ..... Aug. 45
Kickers pep up IBM 4381 ..... Aug. 65
Mainframe price hikes ..... Aug. 90
Wang is an alternative ..... Sep. 31
The 'Blue' vs. the 'Grey' ..... Oct. 32
DEC expands VAX parade ..... Oct. 41

Microcomputing

Renting microcomputers and peripherals ..... Mar. 49
Blowing the whistle on compatibles ..... Apr. 25
'Tokenization' speeds processing ..... May 56
Connecting PCs to multi-user systems ..... May 70
IBM PS/2 announcement ..... May 75
System prevents micro data thievery ..... May 91
New IBM PCs: more smoke than fire ..... Jun. 73
Intel cuts back 80386 shipments ..... Jul. 21
The race for the ultimate portable ..... Jul. 23
Selecting a PC-based LAN ..... Aug. 41
Networking with the 386 ..... Aug. 62
Laptops making gains ..... Sep. 36
Where's the user in the PC wars? ..... Sep 78
Compaq Portable 386, Deskpro 386/20 ..... Nov. 72

Office automation

What's desktop publishing? ..... Mar. 35
Innovations reshaping desktop publishing ..... Apr. 33
EDI seeks wider role in business ..... Apr. 61
How to avoid unfulfilled expectations ..... May 33
How to integrate diverse systems ..... May 54
Offices are people first ..... Jul. 44
What's ahead for fax? ..... Aug. 27
Putting desktop publishing to work ..... Aug. 33
Wang is an alternative ..... Sep. 31
What to know about scanners ..... Aug. 50
Coping with the realities of OA ..... Sep. 57
Office workers wipe out productivity gains ..... Sep. 79
Voice input and output prospects ..... Oct. 29
How's voice mail doing? ..... Nov. 43
The scanning solution ..... Nov. 86
HB set for office gains ..... Dec. 32
Why OA nees wider connectivity ..... Dec. 44
Wang system integrates DP, OA ..... Dec. 53

Peripherals, hardware

Renting microcomputers and peripherals ..... Mar. 49
Value-added compatibles on the move ..... Apr. 27
Color hardcopy needs systems approach ..... Apr. 38
Problems ahead for color lasers ..... Apr. 40
Printer trends ..... May 58
Flat-screen color monitor ..... Jun. 67
Guide to PC printer technologies ..... Nov. 53
The scanning solution ..... Nov. 86
Modems – fighting to hold the line ..... Dec. 46

Software

Making applications last longer ..... Feb. 59
What does 'not copyright protected' mean? ..... Mar. 29
How to develop 4GL applications ..... Mar. 54
A 'paperless' financial records system ..... Mar. 63
Statistical reporting tools aid DBAs ..... Mar. 65
Blowing the whistle on compatibles ..... Apr. 25
Value-added compatibles on the move ..... Apr. 27
What to expect of expert systems ..... Apr. 52
Sounding the call for software support (SW Cda) ..... Apr. 6
Is WYSIWYG what you want (SW Cda) ..... Apr. 18
Towards visual programming ..... May 49
Needed: DBMS for online processing ..... Jun. 50
A look at the case for CASE ..... Jun. 80
Beta testing (SW Cda) ..... Jun. 4
4GLs and DBMS (SW Cda) ..... Jun. 10
Forging the CAD/CAM MRP link ..... Jul. 52
Operating system report (SW Cda) ..... Aug. 4
Which way for IBM PC software ..... Aug. 52
Is CASE for you? ..... Sep. 74
Software merger mania ..... Oct. 31
SW maintenance – a shunned market ..... Oct. 60
Knowledge-based systems (SW Cda) ..... Oct. 6
Bridging the knowledge gap ..... Nov. 41
Microsoft's Excel for Windows ..... Nov. 103
Competition in IBM OS market ..... Dec. 25

Storage and memory

Value-added compatibles on the move ..... Apr. 27
Mini Winchesters ride again ..... Apr. 30
Optical storage gains favor ..... Apr. 66
Why ULSI is going full tilt ..... Jun. 79
Will CD-ROM shine in the DP world? ..... Oct. 54

Systems design

Does strategic systems planning pay? ..... Mar. 58
Designing a DB for production systems ..... Apr. 55

EDITORIAL INDEX

Editorial highlights from 1987

Continued from page 27

How to integrate diverse systems ..... May 54
Taking the data driven approach ..... Aug. 68

User issues

Network security: how serious is the threat ..... Feb. 38
Static electricity ..... Feb. 62
What does 'not copyright protected' mean? ..... Mar. 29
Applying datacomm can make jobs ..... Mar. 30
The human factor ..... Jun. 27
What's happening in maintenance ..... Jul. 35
Offices are people first ..... Jul. 44
End-user computing coming of age ..... Aug. 29
Drawbacks for end-users ..... Sep. 28
Where's the user in the PC wars? ..... Sep. 78
Office workers wipe out productivity gains ..... Sep. 79
Lets hone people skills ..... Nov. 33
How's voice mail doing? ..... Nov. 43
What's end user computing? ..... Nov. 46
Report on DP training ..... Dec. 36

Viewpoints

It's time for a science strategy ..... Feb. 98
Let's open up the phone system ..... Mar. 106
Better guidelines for R&D tax credits ..... Apr. 122
Beware of contracts ..... Jun. 118
An economic manifesto ..... Jul. 76
Security is the key issue ..... Aug. 102
Telecomm – is being ahead enough? ..... Sep. 98
SW needs to track the leaders ..... Oct. 162
Pitfalls in sales tax reform ..... Nov. 110

COMPREHENSIVE MARKET SERVICE

From one of computer industry's most respected analysts.

One annual fee gives the client access to Bob Djurdjevic's expertise for a full year. Become privy to some of the most exclusive information in the industry. Special additional services include:

- **CMS Bulletins – On-Line notification** of any major developments which may affect your business.
- **Single-client workshops/personal consultation**
- **Residual Value Forecasts** for IBM mainframes and select peripherals.
- **Complimentary year's subscription to the ANNEX Computer Report**, a highly respected international monthly newsletter.
- **Optional back issues of CMS Bulletins** (242 pages in 1984).
- **Appraisals of IBM computer equipment** based on ANNEX's exclusive Value Index.
- **"Computer Planning and Acquisition Strategy"** handbook (106 pgs.)
- **Complimentary copy of the Price/Performance Guide** 1979 with our *exclusive methodology* for forecasting residual values.
- **Special Reports** on Amdahl Corp., IBM and other subjects of interest.

Call: **(602) 956-8586** ANNEX Research
or write: **Annex Holdings Corp.**
3610 North 44th Street, Phoenix, Arizona 85016
